Since 1976

Cinquième Sens has been crafting perfumes for niche brands and sharing its "savoir-faire" with perfume lovers.

Cinquième Sens France is a registered training center. Our training programs are carefully designed to focus on enhancing professionals' knowledge of the history of perfumery, fragrance creation, raw material understanding, the olfactory vocabulary and the language of odors.

Today, Cinquième Sens, with its in-house Perfumers, extends this expertise to enthusiasts, sharing its comprehensive understanding of perfumery from ingredients to creation techniques. Our global team invite everyone who loves fragrances, dreams of faraway lands, and seeks emotional and creative inspiration to explore the magic of perfumery.

Cinquième Sens remains committed to nurturing a deep passion for the art and science of scent.

Olfaction

is at the heart of our 4 activities.

- Training
- Perfume creation
- Olfactory consulting
- Events

Olfactorium®

The Olfactorium® is the exact replica of the Perfumers' scents display. It consists of 48 bottles, which illustrate the olfactory pallet used by perfume creators. An unexpected gift for the perfume lovers who wish to increase their sense of smell, or to become an "expert amateur" in perfumes.
